

FRANKLIN AID

Franklin Electric

Franklin Application/Installation Data (AID) ... For The Professional Driller-Installer

Vol. 24, No. 6, November/December 2007

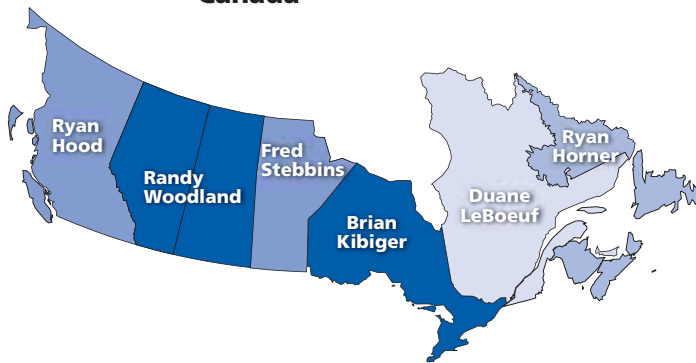

The Technical Service Team Behind You ...

Something that sets Franklin Electric apart like nothing else is our team of engineers that provide you, the professional water systems contractor, technical support on Franklin products.

In this issue of Franklin AID, we thought it might be worthwhile to review our "team roster".

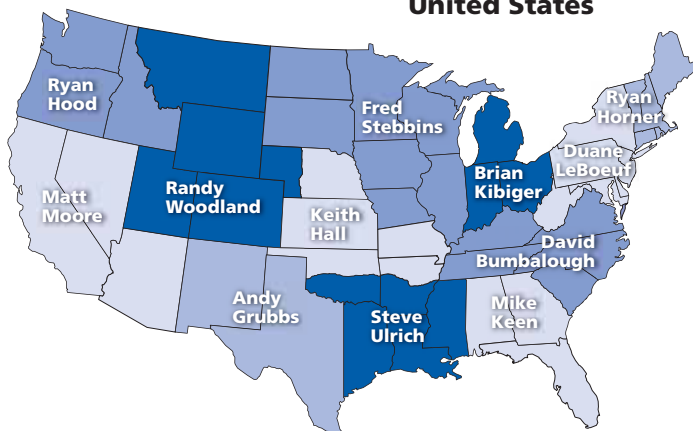

So, if you don't already know your Field Service Engineer, make it a point to introduce yourself at your next trade show or distributor open house. Or, just give him a call ...

New FranklinTECH Campus!

Franklin Electric recently opened the doors to a new FranklinTECH campus in Grant County, Indiana. Dedicated to hands-on instruction focused on drives and controls, this facility features interactive product displays, wireless connections and smart technology. The Grant County campus joins its sister locations in Wilburton, Oklahoma, and Bolton, Ontario as one of the premier water systems training centers in the industry.

Look for a new training schedule soon!
